NONPROFIT REPORT 2024

MESSAGE FROM THE PRESIDENT

2024 has been a year full of challenges, transformation, and innovation for us.

- We were happy to receive the B-Corps certification and join this community, which is a source of inspiration and progress
- We developed a Business Engineering division necessary for the business deployment of our brands in the digital realm.
- We invested in custom GenAI training tailored to our activity, which has changed how we work, allowing us to dedicate more time to creativity and introducing new perspectives for our company and our clients.
- Beyond our historical clients, we are increasingly moving towards private equity, whether with investors or large companies seeking firms capable of building successful brands and businesses from scratch or managing brand portfolios.
- Among the great adventures of 2024, we had great satisfaction in participating in the TECH4Regen startup program at EPFL Innovation Park as mentors and facilitators of a workshop on branding and business development.

Thank you to all our clients, partners, consultants, associates and entire ecosystem for this wonderful year 2024

THANK YOU TO OUR CLIENTS FOR WHOM EVERY PROJECT IS A NEW JOURNEY

INTEGRATION INTO THE BCORP COMMUNITY

ACHIEVEMENT OF BCORP CERTIFICATION

At the beginning of 2024, Swiss House of Brands achieved BCorp certification and joined this outstanding community of innovative and passionate entrepreneurs. We took part in the Swiss Impact Day 2024 in Bern, an immersive day dedicated to sustainability topics.

SUPPORT TO DISRUPTIVE STARTUPS

SUPPORT FOR THE TECH4REGEN PROGRAM BY EPFL INNOVATION PARK

“Tech4Regeneration fosters collaboration among various stakeholders to support disruptive startups in deploying and scaling their technologies through regenerative business models and strategies. Founded and managed by EPFL Innovation Park, this acceleration program aims to gather a critical mass of talented and skilled leaders, partner institutions, and companies to accelerate the widespread adoption of regenerative solutions.”

THIS YEAR, OUR COMPANY COULD NOT AVOID GENAI TRAINING

TRAINING WITH PROMETEE

In the magnificent premises of the Unlimitrust campus in Lausanne, we explored the potential of GenAI specifically for our activity.

The real challenge lies in surpassing the limits of what we think we can ask. There is truly a "before" and "after."

Improved efficiency, automation and time savings, enhanced creativity, innovation in differentiated services, strengthened competitiveness—we are continuing to develop the potential of this tool.

Thank you to the Prometee team!

BOTTLE BACK: THE FIRST PROJECT IN FRENCH-SPEAKING SWITZERLAND LED BY A TEAM OF WINEGROWERS TESTING THE RETURN OF A COMMON WASHABLE WINE BOTTLE OVER TWO YEARS

Why Break Perfectly Good Wine Bottles?

We are eight winegrowers from Vaud, united by the belief that the wine bottle of tomorrow should be washable, reusable, and sustainable. Simply reusing a bottle instead of discarding it after a single use helps save energy, reduce overexploitation of raw materials, and lower the carbon footprint of the wine industry, all to protect our environment.

Bottle Back is the first initiative in French-speaking Switzerland led by a group of wine producers testing the reuse of a common, washable (75cl) Burgundy-style bottle over two years. A total of 80,000 bottles have been put into circulation as part of this pilot project, which is subsidized by the Service de la promotion de l'économie et de l'innovation (SPEI) of the canton of Vaud.

SCOPE OF THE PRO BONO PROJECT

- Brand Strategy & Go-to-Market
- Visual Brand Identity
- Digital Deployment
- Global Communication Campaign 2025-26

La bouteille de demain est

lavable réutilisable durable

PRO BONO PROJECT 2024

YEARLY INTERNAL SEMINAR

QUANTUM ALIGNMENT STRATEGY

Our year usually begins with a quantum alignment strategy seminar led by Carole Da Silva, an expert in this field.

This two-day seminar takes place in an isolated location high in the mountains to gain perspective.

The objective is to focus on harmonizing human, technological, and organizational dimensions to achieve an optimal balance between efficiency, innovation, and well-being.

This stimulates sustainable growth and helps set clear objectives for each year.

FOR 2025

OUR GOALS

As the brand has become the central and transversal element of the company, we deepen our expertise **every year around three pillars:**

- The strategy of the brand, its positioning, and its business development in the digital era.
- Sustainable commitment in the three areas: environmental, social, and economic (governance).
 - Technological innovation and AI as a performance tool.

To continue building and transforming our clients' brands toward greater performance, efficiency, and global awareness.

We are **strengthening our support for the EPFL Innovation Park - TECH4REGEN with our workshops and the awarding of the SHB Prize**, which offers a startup from the program comprehensive support in building its brand and developing its commercial and digital strategy.

Our book of the year is:

"The New Nature of Business" by André Hoffmann and Peter Vanham, because this work clearly explains and describes the reasons why sustainability awareness within companies is today the only path to prosperity and efficiency.

We continue to be inspired **by exchanges, conferences, and connections with our B-Corp community** to build successful brands today and tomorrow.

THANK YOU

FOR BEING PART OF THE JOURNEY
